

PROVIDER NETWORK (including Mayo Health System-Wisconsin)

The CEHA links you and your covered dependents with independent physicians, hospitals and other health care professionals committed to meeting your health care needs. You are free to use any health care provider you want, but you can only count on the lowest out-of-pocket expense by using a CEHA provider. When referral to another physician is needed, urge your doctor to refer you to a CEHA physician. Present your health care identification card each time you visit a physician or if you are admitted to a hospital. From time to time you may be given directory updates. It is your responsibility to determine if the provider you or your family seeks care from is a CEHA provider. Please check with the provider to make sure the provider is currently participating in the CEHA network.

January 1, 2010

Seeking care from CEHA providers will help reduce the costs incurred by you and your health plan. We encourage you and your family members to utilize CEHA participating providers.
